

# HUMPHREY'S HOMEOPATHIC SPECIFIC REMEDIES for People.

These remedies are especially prepared under the direct supervision and inspection of Prof. HUMPHREY, in order to meet the great and long-revealed want of the public, to have remedies fitted for all the more common and chronic diseases of childhood.

A number of reflexions will show that a majority of these diseases are of a chronic nature, and are cold, a slight change in the state of a headache, or hiccups, at first cured and subsides, in time becomes a constant trouble, and continues all the course of a patient's life.

Most of these reflexions apply to a greater public want. Being on such simple principles, you can easily see that it is right, with the curative efforts are positive ones, they are taken, and at once the spell is broken.

These remedies have been used for some few years past, in every part of the country, with almost universal success. All will be agreed that the simplicity and certainty and among our hundreds of agents the audience testimony is, that they give good satisfaction to their patients.

## LIST OF

### HUMPHREY'S SPECIFIC HOMEOPATHIC REMEDIES
